

Free Care for Those in Need

The Oxford Free Clinic is a community non-profit clinic that provides free and affordable primary medical care to the uninsured adult population with the help of volunteer staff. We serve those age 18 through 64.

Our goal is to reach the chronically ill, especially those with congestive heart failure, diabetes, or hypertension, and those who have significant monthly medication costs. The goal of the Clinic is to enable area residents to follow their prescribed course of treatment, even when uninsured or unemployed.

The clinic provides financial assistance with prescribed medications, lab and diagnostic testing.

The clinic does not prescribe narcotics or controlled substances.

Eligibility

Patient must be uninsured

Patient must have a household income at or below the 200% federal poverty guideline

Patient must reside in the clinic's service area: This includes 34 townships located in Butler and Preble counties in Ohio, and Franklin and Union counties in Indiana.

Days and Locations

The clinic is open on the 1st, 2nd, and 3rd Wednesdays of the month.
